- <u>2)</u> Synonyms are words that have the exact or almost exact meaning as another word in the same language. For this reason, synonyms can be interchanged with other words. Interchange means that you can easily replace one word with another word that has the same or similar meaning. Let's look at an example of how synonyms work. Look at the sentence:
- I had a great birthday party last year.

We want to use another word instead of the word 'great.' Can you think of some other words that mean exactly or almost the same.

'great?' We will use the word 'fantastic,' which is a synonym for the word 'great.' Now the sentence will read:

• I had a fantastic birthday party last year.

Let us enrich our vocabulary by writing 5-6 synonyms of at least 8 words in a creative way. See the pictures below and choose any 8 words from the given list and make a bouquet of flowers or smiling sun as per the roll number given

Note: - Roll numbers 1-25 will make a bouquet of flowers and Roll numbers 26-46 will make smiling sun.
